

Medical devices

Product brochure
United States

Overview

The manufacture and sale of medical devices is a huge responsibility with companies facing a complex set of risks such as injury to a user due to defective design or mislabelling of the product, or perhaps the potential for patent litigation. Our insurance policy provides clear coverage offering individual insuring clauses for the wide range of exposures these companies face, all in one comprehensive policy.

About CFC

CFC is a specialist insurance provider and a pioneer in emerging risk. With a track record of disrupting inefficient insurance markets, CFC uses proprietary technology to deliver high-quality products to market faster than the competition while making it easier for brokers to do business. Our broad range of commercial insurance products are purpose-built for today's risks, and we aim to give our customers everything they need in one, easy-to-understand policy.

Headquartered in London and backed by Lloyd's, CFC serves more than 60,000 businesses in over 75 countries. Learn more at cfcunderwriting.com and [LinkedIn](https://www.linkedin.com/company/cfcunderwriting).

Coverage highlights

Products liability

Design, packaging, labelling and efficacy are of the utmost importance to any company involved in the manufacture or sale of medical devices. Our all-risk policy and broad definition of bodily injury relieves your client of any concerns and provides peace of mind in the event a defective, mislabelled or contaminated product is released to market.

Errors & omissions

This insuring clause provides cover for negligent acts, errors or omissions, including costs and expenses incurred in your defense. We also cover the costs associated with your failure to fulfill any contractual obligations.

General liability

General liability is key to any business in their dealings with clients and members of the public. Our cover protects you against legal expenses and compensation claims made by third parties.

Clinical trials

The clinical trial phase is considered the most important part of the research and development process and the success of this is paramount to a sponsor company. Our policy provides protection with ancillary costs and expenses in the event of injury to a research subject during the course of a trial.

Patent defence

Whether you are a patent owner or a service provider that has been commissioned by a customer to complete a project on its behalf, you may be exposed to infringement allegations. Our patent defence extension will cover the costs associated in engaging a specialist law firm to investigate and defend your position.

Worldwide jurisdiction

Our policy provides worldwide jurisdiction as standard to ensure your protection continues as your business grows.

Excess capacity

If you are seeking further peace of mind by increasing a policy limit, we are happy to sit XS of a third party policy on a follow form basis.

Appetite

What we like

Companies importing, manufacturing or distributing the following:

- Most products, both invasive and non-invasive, other than hips, mesh, cosmetic devices, contraceptives or products used for reproductive use
