About CFC

Interest in health and nutrition-related products is on the rise, making nutraceuticals an exciting and emerging industry. But just like any company that manufactures or distributes products, nutraceutical companies are exposed to a range of risks, from products causing bodily injury to products being recalled for various reasons. Our policy is designed for companies working in this area, combining broad commercial general liability with product recall cover.

Coverage highlights

Products liability
Any company that designs, manufactures or supplies consumable products runs the risk of these products causing bodily injury to the end customer. We aim to relieve these concerns by including a dedicated products liability insuring clause as part of this package policy.

Product recall
The safety of products is central to the long-term success of any business, but products can be unintentionally compromised. That’s why we include cover for product recall costs arising from safety critical errors made during production, or where a government authority has ordered or suggests a product be recalled from market.

Malicious product tamper and extortion
Our policy provides cover for recall costs following malicious tampering or alteration that has or is expected to cause a bodily injury, as well as bodily injury that arises as the result of a cyber attack. In addition, cover is provided for the reasonable sums you may incur as a result of product extortion demands made as part of a threat to tamper with your products wherever they are in the supply chain.

Separate towers of cover
Just because you can buy all of your insurance in a single policy doesn’t mean you are restricted by a single limit. Our policy can aggregate the commercial general liability insuring clause or provide a separate aggregate limit for products liability, meaning limits for a claim under one line won’t erode limits for future claims under another.

Worldwide jurisdiction
Our policy provides worldwide jurisdiction as standard to ensure your protection continues as your business grows.

Excess capacity
If you are seeking further peace of mind by increasing a policy limit, we are happy to sit XS of a third party policy on a follow form basis.
