Connect

Single-question quoting is here

CFC's intuitive cyber trading platform is changing the way cyber policies are bought and sold.

Intelligent

The smarter way to quote.

Leveraging CFC's proprietary data enrichment technology, users enter just one piece of information – a domain name – and *Connect* does the rest, scouring publicly-available business data and returning a cyber quote within seconds.

Fast

The power is in your hands.

Connect allows users to obtain quotes, adjust coverage and limits, bind policies, and track orders and renewals – all instantaneously and with zero touch from underwriters. All this makes *Connect* the fastest and simplest way to transact cyber business.

Easy

Make client conversations easier.

Connect helps brokers answer tough questions through its downloadable quote packs, complete with most common limits purchased, claims by frequency and severity, and case studies, all unique to each client's business type and size.

Are you ready to *Connect*? Email cyber@cfcunderwriting.com and register today!
